About Us:
Teens Go Green is dedicated to educating and empowering teens with a goal of reducing Marin’s carbon footprint and improving health through everyday physical activity. Teens Go Green assists Middle and High School clubs in creating fun, innovative and exciting events that promote eco-friendly transportation (walk, bike, skateboard, carpool, bus). Teens Go Green also offers internships and community service opportunities to teens who are interested in taking this cause to the next level.

Our Goals:
- Increase awareness about transportation choices and their impact on the environment and health.
- Encourage and inspire teens and their school communities to increase their use of Green Transportation.
- Provide skills necessary to sustain safe and healthy transportation habits.

Time for Action:
